

International Journal
for Nuclear Power

Information

Press Releases to be published in atw

Technical papers, background reports and news are published in the international special trade journal atw to report on developments, applications and trends in the field of worldwide nuclear power generation.

atw's news cover all major areas of actual developments in the energy industry, energy law, the nuclear sector as also news from the industry, research facilities and organisations.

Current technical results of the power branch are provided in the news part of our journal:
